PROJECTS

*Additional links on my website

NBAGoats

nbagoats.herokuapp.com

- A fun game for comparing and ranking NBA players to see who is the Greatest Of All Time based on public perception through the ELO rating algorithm (commonly used to rank chess players).
- Employs MVC design and RESTful API endpoints for CRUD functionality.
- Built with PHP Laravel framework.

StarterAPI

starterapi.herokuapp.com

- A REST API for commonly used dummy blog data for testing, learning new frameworks, and/or demo purposes
- Built with PHP Laravel and VueJS
